FOOD POISONING KILLS THREE AT OAKLAND HOSPITAL

OAKLAND, Oct. 20.—Three attacks of the St. Anthony's hospital in this city died during last night and today and a fourth is believed to be beyond recovery as a result, it is thought, of some sort of food poisoning. Autopsies were performed in two instances and analysis of stomach contents was ordered.

The dead are:
Dr. Edith Strong, assistant physician.
Miss Anna Renas, nurse.
Joseph Freitas, orderly.

Little hope is held for the recovery of Miss Nellie Russell, another nurse, who was also made ill. Within an hour after Miss Renas complained feeling abdominal pains she had died.

'TWO-BIT HAIRCUT' AGAIN SEEN AT LOS ANGELES

LOS ANGELES, Oct. 20.—The 25-cent haircut has reappeared here. It has been absent for some time, while those costing 35 and 50 cents took its place.

Its reappearance was noted only in a few of those shops which had been charging higher prices, but there it was predicted it soon would become general again.

With it reappeared the 15-cent shave.

WEALTHY NEGRO, ONCE SLAVE, STATES POLICY

ATLANTA, Ga., Oct. 20.—Born a slave, and now reputed to be one of the wealthiest and most respected negroes in the south, David T. Howard, 71, today celebrated his golden wedding anniversary and made it the occasion to give some advice to members of his race.

Beginning on a legacy of \$150, left by his former master, Howard now owns of business assets the fourth largest of its kind in the city and financial institutions readily make loans on his name.

"I never wanted time, I never went in for will o' wits, never saw a baseball game and never danced a step—but always attended to my business," said Howard. "No social equality for me, no same thinking negro wants it."

The negro today, Howard said, wants better justice in courts, better accommodations on railway trains and more schools for his children.

"Too many silk shirts and too much much good time," said he, were the causes of racial unrest.

MISSIONARY WORK OF CHRISTIAN CHURCH TOLD

ST. LOUIS, Mo., Oct. 20.—A general resume of the missionary work of The Disciples of Christ (Christian church) was presented at the international convention of the denomination here today.

The Rev. Leslie Wolfe, of Manila, P. I., told the convention in an address that the United States had done more since 1898 to promote spiritual welfare in the Philippine than Spain had done in 400 years of rule.

The Rev. S. Guy Inman, who was a missionary in Mexico, asserted in an address that the Mexican people were friendly to the United States and that "war is impossible."

COX BOMBARDED WITH QUESTIONS

Dry Issue, Irish Attitude, Nation League Queries Are Hurdled By Audience

PROVIDENCE, R. I., Oct. 20.—Probably the liveliest bombardment of questions during his campaign was experienced by Governor Cox, of Ohio, here today during an address to several thousand persons in the public square.

A woman asked the governor his views regarding maintenance of the Volstead law.

He declared again he opposed any prohibition legislation "in conflict with the constitution as interpreted by the supreme court of the United States" and that he had closed Ohio saloons on Sunday.

ON IRISH QUESTION

His statement that he favored presentation of the Irish question to the league of nations was cheered and when he declared for "self-determination" a man asked:

"Does that apply to Ulster?"

"Ulster is a part of Ireland" was the governor's quick response.

Attacking Senator Harding's position upon the Irish question, Governor Cox added:

"During the last two weeks Republican speakers have urged not to mention his name."

Charges that Senator Harding had taken numerous positions upon the league were reiterated by Governor Cox.

"Would you accept the Lodge reservations?" was another question.

"They were never seriously suggested," the candidate replied. "If they had been, Senator Lodge would have declared for them in the Republican platform."

SEN. LODGE RAPPED

The governor added that he was "most interested in the Hitchcock reservations."

Before the league became a political question, Governor Cox said, Senator Lodge of Massachusetts had endorsed it reservedly.

Repeating his charge that Senator Lodge later formed the "brasserie and most infamous conspiracy" against the league, the governor declared the Republican leader was the "most despised man in America" and loud hisses from the audience followed mention of the senator's name.

"I have been told that for two weeks," the governor commented.

DAWSON FOLKS FEAST ON MEAT OF CARIBOU

DAWSON, Y. T., Oct. 20.—This city has no fear of meat shortage this winter, with thousands of caribou roaming in great herds up to the very outskirts of Dawson. Every house in the city has been stocked up with caribou for the winter and it is estimated there are at least 30,000 of the animals running at large in the vicinity.

WOMEN'S PARTY MEETS IN WASHINGTON FEBRUARY 15

WASHINGTON, Oct. 20.—Members of the national women's party will hold their annual convention in Washington, beginning February 15, and continuing for three days, Miss Alice Paul, national chairman, announced. Approximately 500 delegates will be called, the statement said.

On the opening date, which is the 101st anniversary of the birth of Susan B. Anthony, the convention will present to the nation busts of Miss Anthony, Lucetta Mott, and Elizabeth Cady Stanton, which will be installed in the Capitol.

\$1,000 SPECIAL TAX NOW HANGS OVER HOME DISTILLER

WASHINGTON, Oct. 20.—Persons who violate state prohibition laws by manufacturing or selling either fermented or distilled intoxicating liquors are liable upon conviction not only for the fine and penalty levied by the court, but must also pay the federal government \$1,000 as a special tax.

Internal Revenue Commissioner Williams instructed prohibition agents and internal revenue collectors that a provision of the revenue laws of 1918 imposing the tax was still in effect and directed them to carry it out.

PEACE LEAGUE UNAFAID OF SENATE ACCUSATIONS

WASHINGTON, Oct. 20.—The senate committee investigating campaign funds is "welcome to any incriminating evidence they can find of negotiations with foreign governments" in the files of the League to Enforce Peace, Herbert S. Houston, treasurer of that organization, declared last night in a statement reported by publication in St. Louis of the report of an investigator for the committee.

The records of the organization had been voluntarily thrown open to the committee's investigators, Mr. Houston said, to show the sources of funds raised by the league during the campaign for the league of nations covenant before the senate.

"The committee, it appears, has insisted in going through our confidential letter files line by line," Mr. Houston continued. "I do not hesitate to say such tactics are of a kind with the whole opposition to the league covenant from beginning to end. Mr. Taft was right when he said the senate foreign relations committee was packed to beat the treaty and the covenant. This present investigation of the League to Enforce Peace, at least insofar as it is engineered by the arch bitter-ender, Senator Reed, seems to be part of the same campaign."

"Their highly imaginative attorney has met in conference with the German chancellor and the British prime minister. I never saw or communicated with either one of them in my life. I did have an informal interview in Paris with Leon Bourgeois, chairman of the league of nations council, and although it never occurred to me as a matter of public interest, it seems to be looked upon as important by the committee's attorney."

SOCIALIST CAUSE HURT BY CHANGE IN BALLOT

BISMARCK, N. D., Oct. 20.—The name of Eugene V. Debs, Socialist candidate for president, may not appear on the general election ballot in North Dakota opposite the names of five Socialist presidential electors, the state supreme court ruled. The court held that the Socialist electors had lost their party standing in this state, but may appear as individuals on the ballot.

CHARGES MADE TO PRESIDENT RESULT IN PROBE

Investigate Complaint That Speculators Forced Down Price of Wheat

CHICAGO, Oct. 20.—The federal trade commission today began an inquiry into the operations of the Chicago board of trade.

The hearing follows recent complaints by Governor Henry J. Allen, of Kansas, to President Wilson, that speculation caused the recent depression in wheat prices. He charged that speculators forced down the price six cents.

F. L. Gates, president of the board, prominent wheat traders, Senator Arthur Capper of Kansas, who also has charged that wheat speculation was detrimental to the farmer, and representatives of various farm organizations were called to testify.

GATES IS WITNESS

President F. L. Gates, of the Chicago Board of Trade, presented a table of wheat prices for the past three years, which, he said, indicated that prices on the local exchange were higher both before and after the period of federal control than during the existence of the government guarantee. He reiterated that only the fundamental law of supply and demand influenced prices on the board, and pointed out that the function of the organization is merely to formulate and administer the laws of trading, and regulate commodity prices.

PRICES QUOTED

In July the price of number two hard winter wheat, he said, ranged from \$2.30 to \$2.70 a bushel. This figure was reduced to \$2.17. The government guarantee price, on August 1, 1917, when the grain corporation took over the grain market operation, in June, 1918, the guarantee was increased to \$2.23 which figure maintained until the resumption of open trading July 1, 1919. Between that date and until now prices ruled generally remained above the old guaranteed price, having gone as high as \$2.23 only two trading days. Since October 1, the same grade has sold as low as \$1.99, due, according to Mr. Gates, to the liberal issuance of Canadian wheat to American terminal markets.

George P. Watkins and Philipp Hawes, are conducting the hearings, which will be public.

NEW YORK, Oct. 20.—American

exportation of wheat will cease within ten years unless the farmer can increase the productivity of the soil, Herbert Hoover declared here today at a hearing before the international commission advocating the proposed deep sea waterways from the Great Lakes through the St. Lawrence river.

Mr. Hoover said the proposed waterway would mean a saving of at least ten cents a bushel on export wheat and that this saving would go into the pockets of the American farmer and result in greater production. The former food administrator likened opposition to the waterway as similar to opposition to labor saving machinery.

Arguments in favor of the waterway, which would connect the Great Lakes with the Atlantic, were made by Redfield, former secretary of commerce, and Julius H. Barnes.

STEELS ALONE HOLD BACK DURING UPWARD CLIMB OF MID-SESSION

NEW YORK, Oct. 20.—Relatively steady conditions prevailed at the opening of today's stock market. Only a few issues showed speculative activity and obscure specialties, notably International Paper and Union Bag, were materially lower. Mexican Petroleum soon advanced 1½ points and several of the investment rails rose from fractions to a point with steels, equipments, sugars, leathers, tobaccos and local fractions. Foreign exchange reflected the deadlock in the British coal strike situation.

Improvement became more general during the morning, steels alone holding back. Under lead of Mexican Petroleum, oils rose 1 to 2½ points, motors 1 to 1½, equipments 1 to 2, and shippings and utilities 1 to 2½. Shorts continued to cover their commitments in the rise of the price of rails with Union Pacific, Canadian Pacific, Wheeling & Lake Erie preferred and New Orleans, Texas & New Mexico as the outstanding features. Call money was unchanged at 7 per cent and exchange on London became firmer.

The market became very quiet and featureless at midday, gave for conflicting movements in the speculative groups. American Woolens and Bethlehem Steel were strongest of the prominent industrials, while United Fruit and International Paper developed reactionary tendencies.

TROTZKY LEADS TROOPS TO SOUTH RUSS FRONT

SEBASTOPOL, Crimea, Oct. 19.—(By the Associated Press).—Severe fighting continues along the Dnieper and northeastern front, in the vicinity of Nikolopol, Leon Trotzky, Russian Bolshevik minister of war, is reported bringing up ten divisions of communist forces, which will not surrender as easily as the ordinary troops heretofore used on this line.

It is asserted numbers of former German officers in the Baltic provinces are offering their services to General Baron Wrangel, head of the anti-Bolshevik south Russian government.

LODGE HOLDS WILSON ACTED AS AN AUTOCRAT

NEWARK, N. J., Oct. 20.—Senator Henry Cabot Lodge, Massachusetts, addressing a mass meeting here last night, attacked President Wilson as an autocrat, declaring "his acts are those of a third Napoleon."

"Mr. Wilson has, throughout his administration, steadily sought to usurp the functions of the legislative branch," the senator said. "He tried to make a government of one man. The country is conscious of this attempt and intends to bring it to an end."

"We are fairly familiar with one example of his autocratic rule. Under the constitution the president has the sole right to negotiate and draft treaties, but no treaty can become the law of the land except by a two-thirds vote of the senate. It was impossible for Mr. Wilson to secure a league of nations without the consent of the senate. His plan was simply to aim to compel the senate to ratify the covenant of the league by attaching it to the treaty."

Senator Lodge attacked the methods of the president in conducting negotiations with foreign countries through his personal agents, saying: "He sent men like John Lind and William Bayard Hale to Mexico, although he had ambassadors, appointed by himself. In Europe his ambassadors played a very small part in negotiations between our country and the countries to which they were accredited. He negotiated through his personal agents like House, Creel, Heron and some others. This is the method of the autocrat."

"Let me say when I refer to the views of Mr. Wilson I refer to those of Mr. Cox," said the senator, and

PORTLANDER REPORTS FORTY POUNDS GAINED

E. O. Bernhardt Was Badly Run Down in Health When He Began Taking Tanlac.

"I had rheumatism so bad when I began taking Tanlac that I could not get out of bed alone and would have to have someone help me put on my clothes," said E. O. Bernhardt, a popular mechanic employed by the Portland Pulley Co., who lives at 428 East Forty-sixth street, Portland, Oregon.

"I had suffered for two years and I was in such a bad fix that I was discharged from the army on account of physical disability," he continued. "The rheumatism in my legs, chest and back had about gotten the best of me and when I sat down I would have to be helped up. In fact, I was almost helpless and had to have somebody around me nearly all the time. I could hardly get any sleep, and the pains would be so bad I would wake up during the night and have to have a hot water bottle and have to be rubbed in liniment before I would be relieved enough to get to sleep. I had been in

it saves time not to have to say it every time. Cox is heir to the Wilson policies."

BORAH DENOUNCES PACT AND WILSON AT GARY

GARY, Ind., Oct. 20.—The league of nations and President Wilson were denounced last night by Senator William E. Borah in an address before an audience which packed the theatre where he spoke. Many persons jamming into the aisles and lobby or sitting on fire escapes.

The senator was applauded loudly when he said:

"It will never be safe for America to go into the league unless Europe changes her policies. You people are the keepers of this republic, and not the senate of the United States."

In answer to a question from one of his listeners, the senator said: "No, I don't know what the president said to the people in Europe. No one knows but the president. But I do know what they did to him in Europe. That's enough."

"The league might be all right on paper," said Senator Borah, "but when you get down to a concrete base, it is altogether different. When you get down to the actual working, it seems harsh and autocratic and altogether objectionable."

"They say it will bring peace, but

HASH DID IT!

It is all very well to marry money, especially if you have social ambitions, for money helps. But when Hubby made the money in HASH; furthermore, when his great big glaring hash signs confront Willy's gaze every time she drives out in the Rolls Royce—well, can you blame her for hating hash? And pretty soon she thought she hated the famous hash merchant. So she wanted a divorce. Of course the hash king tried to give her what she wanted. But when he started out to hire a nice, refined, ladylike girl to be the co-respondent—Phew! Willy she had started something that she wished she had her hashubby back again. Don't miss this screamingly funny situation in "Food for Scandal," a new Wanda Hawley picture, which comes to Alhambra theatre tomorrow.

Over sixty million breakfasts with Maple Karo last year

Does it interest you to know that Maple Karo outsells all different kinds of maple syrups? Delicious flavor—moderate price the reason

Two big reasons stand out for the record breaking sales of Maple Karo.

First—the flavor of Maple Karo is not an "imitation." The makers are the world's largest users of the purest and best flavored maple sugar.

Over a thousand tons are brought annually from Vermont and Canada—where the finest maple trees grow.

This sugar is used to make Maple Karo and to give it its delicious flavor.

The second reason is quite as interesting as the first:

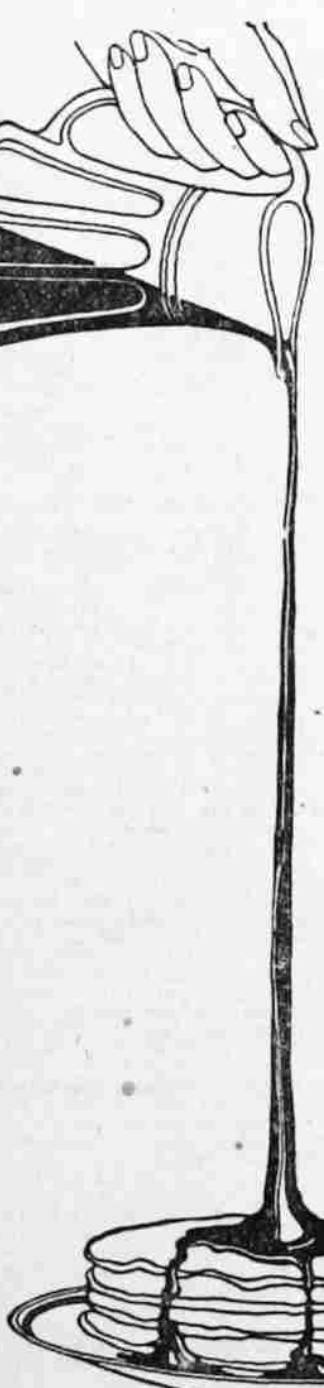

Maple Karo is remarkably moderate in price—selling at a lower price than any other syrup of approaching quality and flavor.

Over five million cans were sold last year.

Get a can of Maple Karo in the GREEN CAN from your grocer today. If you are not pleased with it, the grocer will gladly return your money.
